

Dear Sir / Madam,

Greetings!!

It is my pleasure and privilege indeed to have this opportunity to introduce myself to you. I'm **JHOAN BUENAFLORES BAGATA**, 24 years of age and I was born on 29th of Nov. 1984. I'm a Single Mother to my 4 years old daughter. I'm the eldest in the brood of (4) four. I have 1 brother and 2 sisters. We only have a simple way of living in the Philippines. My interests and hobbies are cooking, travelling, dancing, watching entertainment shows, reading books, playing volleyball and softball.

Being a Single Mother at my early age, I found it not a hindrance to pursue my studies. I took Bachelor of Science in Computer Science for a year then shifted in to Bachelor of Science in Nursing. But due to financial incapability I wasn't able to finish my course and chose to find job abroad. While waiting for the result of my application from my agency, I stayed home and took care of my daughter.

Luckily in year 2006, I was hired to work as a Nursing Aide here in Taiwan. I currently am working in AnHsin Nursing Home, a Chronic Respiratory Care Institution for elderly and children. I was assign to take care of bedridden patients with tracheotomy and most of them has respiratory problem. I'm working for almost 12 hours a day. I have maximum 8 children patients ages 2 ~ 13 years old. Some of them are bedridden and others are stable patients. My daily duties for the bedridden patients are bed bathing everyday to maintain their cleanliness, nasal tube feeding every 4 hours, changing positions every 2 hours to avoid bedsore and changing diaper. Sometimes I give them massage to exercise and percussion.

For the stable patients, I bring them outside the room for walking and exercise. When they are playing I have to pay attention for them and make sure that the place is safe from any harmful object. While our indoor activities are doing arts, watching educational program on TV, story telling and singing rhymes. Before I off on my work I need to check them all and secure their safety and cleanliness.

With this experience of mine I considered myself as a good caregiver and I could assure you that I can manage and handle my job very well. I promise to do all the best that I can to fulfill and follow all your rules and regulations. I hope that you will give me a chance to work and take care of your family in the future.

Thank you very much and may our Lord bless all of your family.

Sincerely Yours,

Jhoan B. Bagata
