TO MY FUTURE EMPLOYER,

I'm KAREN JOY R. ACOSTA, 25 years old, from the country Philippines. I graduated with the course of Bachelor of Science in Nursing and I passed my licensure exam as a Registered Nurse. I'm married to a farmer and his the one looking after to our 4 year old child who is in preparatory school.

I am currently working here in Taiwan as a nurse aide in an institution. We are taking care for almost 127 children in this institution. Some children are in wheel chair and using walker. Others are w/ down syndrome & cerebral palsy.

I want to go to Canada to practice my profession as a nurse, why not in the Philippines? Because we all know what is happening to the economy of my country, if I will just work there I won't assume to give a nice future to our child. Because of the low cost of income.

I will do my best to achieve what I plan in life, to give a nice future to my family and someday I can also take them to Canada so that we are one complete family. I am just a simple person, friendly, understanding, patient and kind.

As your future caregiver I am expecting you to like me or how will I handle my duties and responsibilities and we will respect each other as employer and your caregiver. I will arrange my daily activities carefully so that I can do what you are expecting on me. This is how I end my letter but I hope this letter will serve as a start of our communication as your caregiver.

Thank you and good days. God Bless...
