

To my prospective employer,

I am Jackelyn Liban Santiago, 33 years of Age, Filipina, married to Joner Santiago and have two lovely daughters namely Kate 11 years old & Kianna 10 years old.

I am a hard working individual and at the same time, I am a loving mother. After long hours working in the clinic, I would always be looking forward to going home to be with my daughters and ask them about their activities in school, check their notes and help them with their assignments. I also found pleasure in cooking for them even though I was tired. I have done all those things for my kids because those are the ways that I can provide them the care and love that they need.

I am also a God fearing individual. I always pray that God Almighty will guide and protect me with all the people I love & care.

Back in the Philippines, I tried to balance my work and my role as a mother to my two kids. I knew for the long term planning, my income would not be enough to support their education and some other needs. Therefore, I decided to work abroad to find a better paying job.

It has always been my dream to work as a caregiver in Canada .Because of my long years of being a primary caregiver to my kids; I am confident enough that I am qualified to render care not only to my kids but also to the people who I will consider as my second family.

Although it is hard for me as a mother to leave my two kids at home, I know that I will find a second family in your family, ma'am and sir. I hope that you will give me a chance to take care of your family. I will do my very best and I will do my part whole-heartedly and take care of your kids for it serves as a reminder of my own kids too. God Bless you and Thank You very much for finding time to read my letter.

Yours sincerely,

JACKELYN LIBAN SANTIAGO
