

Dear Future Employer,

Greetings!

I am Danniel B. Kutz, 25 years of age. I have been working here in Taiwan as a Nursing Aide at the Hsiao Ai Home for the Aged for more than two years. I wish to apply as a Caregiver in Canada in order to support my 3 children and my parents. I got married at a very young age. Though I had difficulty in studying and raising a family at the same time, I was able to manage it because I really love taking care of my son and teach him all the things I learned from my parents. My parents taught me to be God-fearing, hones and not to take advantage of anyone.

I graduated with a degree in Bachelor of Science in Nursing in 2007. Since it was difficult to find a job in the Philippines, I decided to work as a Nursing Aide here in Taiwan. As part of my job here, I underwent training in CPR and Firs Aid.

I am the kind of person who looks back where he came from and always putting my feet on the ground. I am a funny person and have the ability to make other people laugh. I believe in the saying “ Laughter is the best medicine.” I am honest, flexible at work, dependable, fast learner and most of all hardworking. During my free time, I enjoy playing computer games and web browsing.

I love taking care of people. Because of the good feedback from our elderly patients, the nuns who are managing the Home for the Aged where I am currently working are supporting me in my application to Canada. The patients here say that there is life when I’m on duty. I really enjoy their company and I treat them as my grandparents.

I have so many plans for myself, my children and my family. It is my dream to build my own house and another one for my parents since we are still living with my grandparents. I also want to save money in order to support the education of my children and give them a comfortable life.

With my credentials and qualifications, I hopy you would consider me to work for you. I can assure you that you would not regret it and with my sincere intentions I would serve you to the best of my ability.

Respectfully yours,

Danniel B. Kutz
