

big house, I dust/wipe their appliances, chairs, tables, cabinets & windows and also empty the rubbish bin everyday. I look after their plants (flowers), water them everyday & sometimes I clean the flower pots by pulling out the weeds/grasses that were grown around the pot.

Ms'm/sir though my present job have no kids to look after, I am still confident that I am qualified to be a nanny to your kids because I was been a babysitter for 2 years & 3 months w/ my previous employer. In my previous employer I looked after 4 kids but most especially the 3 mos. old baby until she was 2 yrs & the 3 yrs old boy until he was 5 yrs. old & prior to that I went for a 248 hours training course on Caretaker back home in the Philippines. I like to be a babysitter there in CANADA because I enjoy the work of being a nanny & I love being around with kids & I know that I will be a good nanny to your kids if given the chance to work with you.

Honestly, I am not good in the kitchen but because I have been working with different employers I was able to learn how to cook. I learned how to prepare some chinese foods and also western foods although mostly I can only prepare the basic ones, and I am very willing & eager to learn more on cooking. In western food I can prepare veg. salad, spaghetti, carbonara, mashed potato, grilled potato, carrots and some other (more), I can bake cake too. Usually baking is my pastime when I was backhome, I hang out with my nephews & nieces during my free time making cake together & in my previous employer baking also was our favorite activity with my employers youngest kids especially when the 2 of us left home, or sometimes we go out for a walk or play some outdoor games, other than that after work, I usually do reading & listening to music.

My friends described me as a nice & thoughtful friend but I do believe that being responsible & understanding will describe me more because I am the person who can endure the pain of life or sacrifice my happiness just to give a better future for my family and my goal in life is to give the best I can, to support my family & to let my brothers & sisters pursue their education & to secure a better future for my parents. I trust & do believe that with your generosity I could be able to give them a brighter future so I am here seeking your help by giving me the opportunity to work with you & your family.

Ms'm/sir if you will give me a chance to work with you, I appreciate it very much and it will be an honor to be of service in your family & I will do my very best to be in good service & I will serve you with honesty, respect & dedication so Ms'm/sir please choose me to be your nanny in your family. I am hoping that you will welcome me in your home & hope to see you soon, regards & more power GOD BLESS & thank you very much.

Faithfully yours,
