

Being a good Caregiver my priorities are the person that I care of. I must be patient caring, understanding when taking care the children. I have positive attitude I can provide love, care and compassion for the children.

The children needs love and caring, I spend sometime to play with them like ballgames, roller skates, biking, swimming, hide & seek, drawing, puzzles and educational games. I will encourage them to hear soft music and to communicate with them frequently. I can manage to handle my works, and I can provide all necessary needs of what my work is being assigned in the absence of my employer. In childcare, it is important to plan activities to the children before doing some works. I can manage to keep my time and adjust my work if not finish yet.

I am physically and mentally fit as an applicant for nanny/caregiver. If you select me I will do all my best to do my duties as a good employee. I promise to follow your rules and regulations. I will be very happy to work your family, and I'm very willing to work as you need my service.

Thank you very much and have a nice day!

Respectfully Yours,

Richie M. Alimbayong
