

Dear Future Employer,

Good day!!

I'm **ASUNCION ODESTE ALDAY**, 29 years of age, Married and I was born on August 15, 1979. We are eight (8) in the family and I'm the 6th in the birth order. My mother is a housekeeper and my father was already deceased. My husband is 30 years of age and he is a driver. We were blessed for having two (2) children wherein the eldest was already 6 years old and the youngest is 4 years old.

I graduated at the University of Batangas in the year 1998 and achieved the degree of Computer Secretarial. Afterwards, my first working experienced was from 1998 up to 2001 at the Fujitsu Computer Company in the Philippines as a Production Inspector. In the year 2007, I took the 256 Hours Caretaker Course because I believed that it would be useful if I ever I will search a job overseas.

Presently, I am working here in Taiwan as a Nanny of the 2 years old boy since year 2007. He was only 4 months when I came. My duties and responsibilities for him are feeding, bathing, changing diaper, potty training and sterilizing feeding utensils. I also accompanying him to his piano and swimming lessons. Whenever he got sick I'm also the one who's oblige to bring him to his Pediatrician because both of my employer are very busy in their respective job.

Every weekend, his 7 years old cousin is also coming in to our house to spend the weekend together. Therefore, these 2 kids were all of my responsibility. Sometimes, if the weather is fine I bring them to the park and play outdoor activities such as biking, tennis and playing balls. While our

indoor activities were drawing, coloring, reading and also teach them to do their homework. I prepare meals or snacks for them and I always assure their safety.

Some people said that taking care of children is a very hard task because they are naughty and stubborn. But as far as I'm concern, I really enjoy in taking care of them because for me kids are adorable and they certainly ease my sadness. I considered them as my inspiration and angels in my job. I show all my love and concern with them and in return they treat me as their own mother or sister too.

Being a caregiver, I always have the presence of mind to fix all my work and avoid the hassles or tension in order to perform my job very well and can finish on time.

Due to my eagerness for having a better future, I want to work in Canada and fulfill all my dreams. Sir / Madam, I'm proud to say that I'm a good caregiver because aside from being a well experienced I'm also a well mannered person. I could guarantee that I can perform all my duties even with or without your presence. I have a positive attitude, responsible, honest, trustworthy, fast learner, confident and flexible. If I am lucky to be chosen by you, I promise that I will do all my duties and responsibilities very well and efficient with your satisfaction.

Hope to see you soon and I can't wait to take care of your family.

Respectfully Yours,

Asuncion O. Alday
