

In my training, I developed more confident to myself in taking care of adults and children. I also learned more on how to handle to my different types of people, I learned more calm to myself for me to be able to understand others. My friends describes me a very hardworking girl, well determined gentle woman, I am a happy person. I love imparting knowledge, I love going in park or in mall for sight seeing. I love singing, dancing reading news and watching TV.

The reasons why I want to work as caregiver, firstly, because I really love this job as CAREGIVER from the bottom of my heart. Secondly, I want to have more income to sustain the expenses of my old parents and I can help also my sister's and brother's children to be able them to go in their college schooling. Lastly, to save for myself for my future family.

Sir and Ma'am, If you allow me and give me a chance to work as a caregiver with you, I will promise to obey all the rules and regulations in your house. I am a hardworking and very much willing to learn and be trained. I will do my very very best to give you my very good service. I am also willing to take an overtime if you needed my service.

Thank you so very much for reading.
GOD BLESS and MORE POWER TO ALL.

Respectfully yours,

~~Delia C. Auman~~
