

Dear Sir/ Madam,

Good day to you!

I am Susan Padillo Acantilado, 31 years old and single. We are eight in the family and I am the fourth child. I graduated with a degree in Bachelor of Science in Commerce. My parents molded me to become a strong person.

My first job in Taiwan was a Nanny. I took care of two boys ages 5 and 2 years old. Since I love children, I did not have any difficulty in doing the tasks that my employer asked me to do. I escort the eldest child to and from the school, prepare and cook meals, bathing them and changing their clothes. For recreation, I play with the kids or join them while they're watching television. After my contract I went back to the Philippines.

I came back to Taiwan again to work as a Nanny but this time with another employer. I took care of 2 boys ages 8 and 4 years old. At first I had a hard time to adjust because the older child is autistic while the younger one has a heart problem. I have to give special attention to the autistic child especially when he's having tantrums. I treated them as my younger brothers so taking care of them wasn't difficult anymore. At the end of my contract, it was hard to leave them because I have grown attached to the children.

At present, I am taking care of a 2 year old bedridden girl. I give her a bath, feed her and give her medicine through ngt. I am also the one who brings her to the hospital for her regular check-up.

I am taking this opportunity to apply as a nanny to your children. If you will consider me, I guarantee you that I will take good care of your children. I hope you would consider my qualifications and experiences to be your nanny.

I'm looking forward to work for you and your family. Thank you very much for your time.

Sincerely yours,

Susan P. Acantilado
