

To my future employer,

My name is Miraluna Millondaga Nieves, I am 37 years old, I have 4 sisters and 1 brother. A Filipino citizen, grew up in Guimaras island Philippines and so glad to be the daughter of Mr. Diosdado and Welhelmina Nieves. My late father was a seaman and my mother was a fish vendor, they raised us up as strong, well determined, hardworking, honest and God fearing individuals.

I am a graduate of Bachelor of Science in Hotel and Restaurant Management, as a working student, because my father's income was not enough to support us, and like other normal people I have ups and downs, I have sad moments, that was when my father died. I felt I was alone because my two sisters and brother were married already. I was the one who took on the responsibilities of my father to our family. I took care of my mother and younger sister, she was studying nursing at that time but my income was not enough to support her. So I decided to give up my job in the Philippines to help her continue and finished her studies, by accepting the invitation of my best friend to join her in Macau.

At present, I'm working here in Macau republic of China, I came here October 2004 and have been working as a domestic helper, employed for 4 consecutive years with one employer only until now.

My employers are Mrs. And Mrs. Chan, I started taking care of their children Amanda and Marco when they were 6 and 10 years old. I wake them up 6:30AM, prepare them a breakfast, assist for their dressing, eating and accompany them to school. Mostly I spend my time with the kids, after school I help them do their homework and if we have free time we play badminton, scrabble, and monopoly. I go swimming with them also. My daily chores include marketing, menu planning, budgeting, housekeeping and cooking. I can cook Chinese, Portuguese, Filipino, Thai and sometimes Western food. I am very flexible when it comes to my daily schedule. I see to it that I could give my best service and satisfaction with them.

Regarding my hobbies, I love sports like badminton, basketball, swimming, dancing and jogging. My friends describe me as a happy person. For me life is wonderful, family and friends are my inspiration and keep me moving on to the next level of either defeat, challenging or winning stages of life's fantasies. Gifts and burdens in this land are in infinite motion but I always do my best to keep routine. In this world dreamers are always present and I am one of them. Working in Canada is one of my dreams.

To my new employer, I will do my very best for your family especially with your kids. I am very much dedicated to do my job as your future nanny. I work with passion and sincerity. I can assure you for best service. No hesitation, I am the one you need a dependable and trustworthy caregiver.

I hope you enjoy reading my letter and excited to hire me as your caregiver. Likewise here, excited to meet your whole family.

Best regards and God bless to all.

Miraluna M. Nieves
