

To my future employer,

My name is Ma. Anelyn Antatico Apellado. I am 34 years old and I am the daughter of Pablito Antatico and Rosario Antatitco. I am the 7<sup>th</sup> child of 8 children. I am happily married to Ariel Apellado. Unfortunately, we don't have any children yet, but in the future we hope to have. I am a graduate of Associate of Computer Science major of Structure of Programming Language. I graduated from Galang Technical Institute in 1994. I also have the 6 Months Caregiver Course, First Aid Training, CPR Training, 30 hours on-the-job training in Sunday school (guiding children in enhancing intellectual and creative skills such as story telling, playing with peers to promote self-confidence, nurturing and assisting in personal care to children to such as personal hygiene, good grooming and feeding, teaching and demonstrating good manners and right conduct), 72 hours on-the-job training (provides car and support to elderly people, assist in personal care to elderly such as personal hygiene, bathing, good grooming, responds to emergencies at any given time, prepares hot and cold meals, maintains healthy and safety environment, cleans living room, dining room, toilet and bathroom, establish and maintain appropriate relationship with employer/client/customer, provide and create recreational activities, and 90 hours on-the-job training at Nazarene college Foundation Hospital (assist in providing personal care to patient such as bathing, feeding and personal hygiene, promoting health care observance such as assisting in giving medications, performing techniques in transporting patient from ward to other units, applying mechanics in CPR during emergencies).

At the moment I am working in a factory in Taiwan. My job is as a soldering operator and assembly operator. Before working in Taiwan I was a nanny in Philippines for almost one year. I took care of a 3 year old child. I prepared her meals, helped her with all his needs and assisted her and I did the household chores. In 1998 I was in Taiwan for 2 years and I took care of a 5 years old child. I prepared his meals, bathed him, got him ready to go to school, accompanied him and entertained him. At the same time I did the household chores that include cleaning the living room, dining room and the toilet.

I would like to be a nanny in Canada because I have the training and experience to be a good nanny. I might not be working as a nanny in Taiwan right now, but that doesn't mean that I don't have the ability to be a good nanny. I really want to be a nanny because I like children. I hope that you are able to give me a chance to be your children's nanny. I am willing to work overtime and learn anything that you are willing to teach me.

Respectfully yours,

MA. ANELYN APELLADO
