

To My Future Employer,

Greetings

My name is Anelee G. Tumamao, Filipino, 27 years of age, single, and currently employed as a Domestic Helper here in Macau for almost 3 years under one employer.

I'm the third child among the four children, my mother passed away when I was 9 years old because of cancer and as a child growing up was definitely a struggle. There was never enough money, but through our vertical relationship with God, I was then able to finish my study.

I'm a graduate of Bachelor of Science in Commerce major in Management and I also took up 6 months caregiver course, where I gained my experiences in areas such as Elderly care and care for Children with special needs at the Home for the Abandoned Aged and Children during my On the Job Training or (OJT).

After my training in Caregiver, I was employed as a Secretary in Avon Cosmetics Inc. Philippines for four years. Due to continuous crisis in the Philippines, I decided to go abroad. When I made my entry in Macau I was deeply thankful because I landed to a good Chinese employer. These people whom I greatly respect are the first and hopefully will be my last employer here in Macau. They are a working family and to take care of their two active children ages 9 and 7 is my top priority. Now they are 12 and 10 years old. In addition to that my duties include cooking, cleaning, laundry, and ironing and helping the children with their English homework, I also take care of one dog. As for my cooking ability, I only cook simple Chinese food since my Ma'am works on shift and there are times that Sir won't stay at home for dinner because of his job.

I was happy for almost 3 years of working with them, they treat me as part of the family and those ordinary moments with the children are such a wonderful experiences I enjoy.

As a Filipino worker abroad, I want to work in Canada someday in order for me to have a brighter future, to improve myself more and to raise my single parent father in poverty to better his condition. I might not be fluent in English but I'm determined to learn and adapt your culture. I'm willing to devote myself and do the best that I can be to any task that you will have given to me to please you and meet your standard. For, I believe in the virtue of hard work and I'm apt to believe that if you love your job, your job will love you back someday.

The opportunity to work with you in the future is a dream come true.

Thank you so much for your time reading my letter.
