Address: TAIWAN

Period of Experience: DEC. 2006 up to the present

Position: NURSING AIDE

Duties and Responsibilities: *I have maximum 8 children patients ages 2 ~ 13 years old. Some of them are bedridden and others are stable patients. My daily duties for the bedridden patients are bed bathing everyday to maintain their cleanliness, nasal tube feeding every 4 hours, changing positions every 2 hours to avoid bedsore and changing diaper. Sometimes I give them massage to exercise and percussion. For the stable patients, I bring them outside the room for walking and exercise. When they are playing I have to pay attention for them and make sure that the place is safe from any harmful object. While our indoor activities are doing arts, watching educational program on TV, story telling and singing rhymes. Before I off on my work I need to check them all and secure their safety and cleanliness.*
