When I started working for the family, I took care of twin babies who were three months at that time. After one year, one of the twin was brought to the United States. At present, I am taking care of the other twin and the older brother who is more than 2 years old. My duties include feeding, bathing, sterilizing feeding bottles and feeding utensils, changing clothes/diapers, watching them while they are playing and make sure that they are safe. Aside from these, i also do household chores like cleaning the house, cooking and washing clothes.
